

OVERVIEW:

The Citrix Gateway (Formally Netscaler Unified Gateway) Jump Start offering is designed to assist the customer with standing up the CG with the intention being to provide a production-ready portal that allows the customer to take advantage of the most common advanced features that UC is capable of. This functionality will also future-proof the customer's environment providing a starting point for the migration to the newer RfWebUI Persona/Theme now available in builds 11.1 and up.

During this Jump Start, Choice Solutions will take you through the process of setting up the Citrix Gateway environment along with the bookmarks, AAA groups, policies and persona/theme required. At the completion of the engagement, the customer will have the knowledge required to maintain the environment and the confidence to continue expanding on the environment when necessary.

OUR SERVICE OFFERINGS:

THIS CITRIX GATEWAY JUMP START WILL INCLUDE THE FOLLOWING:

- o One new Citrix Gateway vServer
 - o Includes one new content switching vServer
 - o Includes up to two new session policies and corresponding actions
 - o Includes one new RfWebUI persona/theme
 - o Up to five AAA Groups
 - o Up to two authentication policies
 - o Basic out-of-box corporate branding
- o Up to four 'bookmarks' dependent on what resources are available to be hosted in Customer's environment
 - o Citrix published application or desktops (Citrix environment access)
 - o Software as a Service (SaaS) application (external, cloud-based application)
 - o SAML based single-sign utilizing either ADFS, Azure AD or Okta
 - o Internal application
